BEWARE OF SWINDLESS.

To the Editor of The N. Y. Tribune.

Ein: Some shorper who has visited the Crystal Palace within a few days has stolen from the lumber room several parcels of old admiss on tickets signed P. T. I aroum, and is doing quite a business selling those worthless tickets to verdant indeviduals from the country. I would feel much oblined by your giving publicity to this fact which would probably bring the ticket vender to a different market. Although the Falace is open there are no admission tickets extending source.

COMMERCIAL MATTERS.

TUESDAY, June 19-P. M. The speculative activity in the Stock market continues, with a large business in the leading Stocks at advancing prices. The largest advance has been in the shares of the Western Railroad, but nearly all the Stocks on the list have felt the upward impetus. As yet Canton, Cumberland and Nicaragua have sttracted less of the attention of operators fluring the late rise than the other heretofore active Stocks, but it has usually been the case when the Stock market is speculative and rising that the various Stocks advanced by turns, one being moved upward 5 to 10 P eent when the attention of the Board appears to se drawn off to other descriptions which have not started. After the present movement has been measurably exhausted we presume the at present neglected descriptions will be taken up, as is the case with Cleveland and Pittsburgh which, after having dragged at about 35, has suddenly in a few days advanced to 55 bid. The principal excitement of the day has been in Central, which has sprung into considerable activity. The sales at the Board and outside were 3,500 shares, not including over 2,800 shares sold at auction. Under these large sales the market advanced to 100%, closing at 100%, an advance of 1% ₽ cent since yesterday. It was supposed the large amount of Stocks thrown on the market at auction would depress prices, but the result was the reverse. the auction sale being higher than the Board rates. It is understood that the Directors will soon declare a dividend of 4 & cent in cash. The June business thus far is quite equal to the enormous business of May. Erie was also buoyant, and closed at 501 bid, an advance of } ♥ cent. Reading advanced 1 ♥ cent, closing at 91, notwithstanding the current reports that the leading bulls in the late movement have been and are selling out. The infection has been taken by Hadson River, which advanced 21 P cent. Harlem sold at 301, an improvement of 1 P cent. The largest advance, however, was on some of the Western railroad shares. Galena and Chicago went to 110 bid, which is 5 P per cent better. Cleveland and Pittsburg advanced 41 P cent. Michigan

Southern at the Board at 107%, and privately at 1094 @ 110, which is 4 P cent advance-partly the result dend of 31 P cent payable 2d July. of the declaration of a 5 P cent cash dividend. Chicago and Rock Island advanced to 99, which is 3 & cent payable 6th July. There being an error in the statement of re better. Little Miami sold at par. Cleveland and Toledo, 91 bid, 2] & cent advance. Michigan Central 1001, &c. In Railroad Bonds the movement continues to be strong, the action being mainly confined to the per, we republish the same in a corected form: Illinois Central, of which the sales were over \$200,000, Construction Bonds advanced to 841 bid, and Freeland to 80. N. Y. Central sold at 901 & 102. Eric 1875 914; Hudson River 3d Mortgage, 764; Eries, 1871, 854, &c.; Terre Haute and Alton 1st Mortgage, 874, and 8 P cents at 85. In State Stocks the transactions were \$100,000 at full prices. Indiana 5s, 85; Tennessees, 98; Virginias, 1004; Missouri 6s, 974; Louisiana 6s, 933. A sale of \$5,000 United States 6s, 1867, was made at 1164. In Exchanges the market closed without much change. Sterling, 97 @101-the bulk of the business being at 10 \$\psi\$ cent, with some sales of a banker's signature at 9%. There was a larger supply of commercial bills on the market, and sales with bills lading attached were made at 91 F cent. Francs,

5,15 @ 5,121. Freights continue firm though the offerings are still light. To Liverpool, engagements include 25,000 bust els Corn at 54 @ 6d. in ship's bags; 200 bble Oil, 17/6; 500 bales Cotton, 5-32@3-16d.; 70 bales Sea Island Cotton, 5-16d.; and to London, 300 bales Tobacco about 14/.

The payments as the Sub-Treasury are \$26,942; received \$70,105; balance \$2,324,998; paid from Assay Office \$1,271; paid on disbursing checks \$23,934.

The sale of New-York Central Securities for account of the Trustees of the Utica and Schenectady Railroad Company by Mr. Draper, attracted a very large company, and nearly the whole Board of Directors of the Central Road were present. We have seldom seen the representatives of so much solid capital gathered together at an auction sale in this City. The sale embraced 2,843 shares Stock and \$217,800 of Bonds. The bidding was very spirited and the sale went off at least 1 ? cent above the expectations of the parties offering the Stock. The shares all sold at 99] a 100%, and the Bonds at 86] #87] and interest for the Subscription, and 1011 and interest for the Convertible. Of the shares Mr. A. G. Jerome bought 2,300 for a party of capitalists for investment, and Mr Thayer of Boston took 543, the balance. Mr. Draper

also sold. also sour:

\$17,00 L. Erle, Wahash & St. Louis R.R. 1st mort., int. ad. 75;

10,00 N. Y. Ceutral Railroad Rea: Estate 6's, int. added. 365;

shares of the capital stock of the Gold Hill Mining Company, forfeited for non-payment of an assessment

of 73 cents per share levied thereon. They brought

74 cents to \$1 per share, subject to said assessment.

At the recent meeting of the stockholders of the Terre Haute and Alton Railroad Company held at Alten, the following persons were elected Directors: Simeen Ryder and Robert Smith, Alten, Ill.; Thomas Allen, St. Louis, Mo.; Hiram Sandford, P. C. Huggins and J. W. Moulton, Illinois; Charles Craft, Terre Haute, Ind.; Edwin C. Litchfield, D. B. St. John, E.

B. Litchfield and Alved Hunt, New-York; John Stryer, Rome, Henry Martin, Buffalo. At a meeting of the Board held at the office in this City to-day, D. B. St. John, Esc., was unanimously elected President of the Company, in the place of the late President, Simeen Ryder, Esq., who declined a reflection to that poet. Mr. Ryder was at the same time elected Vice-President of the Company. The Board of Directors bave just returned from a trip to St. Louis and back, over the entire line of the road, which was found to be in a very satisfactory state of progress. The track is taid upon the Eastern Division of the Road, from Terre Haute to the Chicago Branch of the Illinois Central Road—57 miles—and by July it will be in full operation. The Western Division from Alton to the Main Line of the Illinois Central Road-78 miles-is nearly completed, and will be ready for use by August next. The middle division-39 miles in length-will be opened in September, when the whole road will be completed through to St. Louis. This line, now so near completion, has been pushed forward steadily through the stringent times of the last twelve months, and will be opened for use within ninety days, free from a floating debt, and in good condition for profitable operation. Mr. St. John, the new President, is known as an intelligent and energetic man, and we do not doubt that in his new position he will prove

himself a valuable officer.

The semi-annual interest on the Bonds of the City of Wheeling issued to the Hampfield Railroad will be paid on the 2d July by Messrs, Winslow, Lanier & Co. The earnings of the Chicago and Burlington Rail-

Feeria and Counta Railroad Company. \$1,862 51 | April \$4,843 00

The shipment of Belmont for the steamer from Boston to-morrow is \$500,000, to which is added \$100,000 by various shippers, making the entire amount \$600,000 from this City, against \$850,000 \$\text{\$\text{\$}}\$ the last Boston steamer.

The business at the Clearing-House was \$16,540,000.

The business in Cotton for the week has been about 0,000 bales, but the pressure of speculative lots of Cotton on the market has counteracted the effects of the favorable news by the last steamer, and quotations remain, after some considerable fluctuation, at the figures of last week. The Southern rivers are again falling, but the late rise has been sufficient to release a considerable amount of Cotton. Mr. Wright's Circular says:

Circular says:

The receipts show a slight rain on the corresponding week last tenson, the total deficit being 400,000 bales. Next week this will be reduced, as we learn by telegraph that at Mobile 21,000 bales have been brought in on the recent rise of the twent tributary to that port. The receipts in the corresponding week last year were but 1,400 bales. The apport to Great Britan shows a gain for the week of 3,400 bales; next week a considerable deficit will be shown, as we have them to compare with a heavy week as year, and this must continue since there are but half the number of vessels loading as compared with this date last year, and the stock of couton on kand is 204,000 bales less. The export to France is light and some reduction of the present excess nexport that country will now take place weekly until the loss of the season.

The advices in relation to the recent rise in some of the Southern rivers alluded to in my last circular, have been confirmed.

The Sur Locateanth Castle, Turner, from Liverpool for Quebec, ashere on the Bird Rocks, is over 1,600 tuns, and had when she left Liverpool. 307 souts and a cargo of sait and rice. She was wrected on the Bird Rocks on the 4th inst. The bark Sophia birheraile, (not Sophia Ridston) Capt. Groenhorn, came in sight a few hours afterward, and seeing the position of the vessel and a signal of distress firing, she was hove to, and during the night succeeded in bringing off £10 of the most belpless of the passengers. The wind then freshening on agale with a beary ing. Capt. Greenhor was obliged to bear away without receiving any supply of provisions or water. When he left, the Lochmoben Cestle, had not received any material damage, and the master was sanguine of being able to save her and the reminder of the passengers, and to lighten her had thrown overboard 566 tunes of cargo. The passengers so far saved have arrived and been landed at the Quarantite existion, Quebec, where those who left relatives in the wrecked ship would be provided for cutil usings were raceived of her fate. The Government dispatches a schooner with provisions to the rocks for the research of the remaining sufferers.

Bark Buritin, at Philadelphia from Clenfusgos, had to throw sverbead her deck lead of molacese while she was sahere on Cope Antonio.
